LKD Aerospace Adds Internet Technologies Manager

Additional IT Specialist To Assist in E-Commerce Build Out

March 27, 2000 -- LKD Aerospace announced today the recruitment of their new Internet Technologies Manager. Prabodh Joshi will be joining LKD in the newly created position of Manager, Internet Technologies. Mark Chamberlain, Vice-President of Marketing and IT, stated that, "LKD is excited for Prabodh to be joining the LKD team. Prabodh's extensive knowledge in telecommunications, networking and database design is the perfect complement of skills to match LKD's Information Technology needs. With the addition of Prabodh, LKD is continuing to progress in the build out of our IT infrastructure and e-commerce services."

Prabodh has held information technology positions of increasing responsibility with Xerox, Marriott and most recently with Internet startup companies. Prabodh holds a B.S. in Electrical Engineering from Andhra University, India and an M.S. in computer science from Arizona State University. He has extensive database design experience in SQL Server and Oracle as well as in programming in Unix, Visual Basic and C++. Prabodh commented, "I am excited to add my skills to LKD and am looking forward to assisting the IT team in developing new web applications in support of the company's e-commerce initiatives."

Last month LKD announced the addition of its new Information Technology Manager, Candie Carpenter. Candie joined LKD from the Boeing Company. In addition, earlier this year LKD announced the launch of its new website www.lkdaerospace.com and e-commerce initiatives.

LKD is developing a complete e-commerce website and the company is making large investments in the development of its IT and e-commerce infrastructure. LKD expects to launch its e-commerce site later this quarter in June.

LKD Aerospace is a global leader in aerospace aftermarket distribution and information services. LKD provides factory new and surplus products as well as consignment and information services. LKD serves major and regional airlines, repair and overhaul and other members of the aftermarket community throughout the world.
